## PROFILE

### Let's build an awesome product together.

What started as a favor to create a simple website for my parents' photography business at age fourteen has become a passion and career as I produce best-in-class experiences today. Careful and concise design and development are fundamental in creating the most successful solutions for any product. I am here to not only help achieve business goals, but to also deliver cutting-edge experiences in an ever-changing and competitive industry that are sure to meet user needs.

### Tiffany Chambers

SolutionStream

"Austin is truly one of the most talented people I know. From my first interaction with him I have been highly impressed by his professionalism, technique, and out right passion for technology. Austin is one of those people who belongs in technology. Some people strive to be the best in their field and for Austin it comes naturally. When Austin relocated to Texas, Utah lost one of the best Designers in the state. I would highly recommend Austin for anything from an individual contributor role to managing a design team. He is exceptional in everything from user experience, front end design, to client interaction. We were lucky to have him as long as we did and you would be too. Austin is an all star. He is highly proficient in working with the latest and greatest technologies including HTML5, CSS3, Angular.js, API Integration, and much more. Feel free to reach out to me if you are looking for additional information."

### Joe Burkinshaw

SolutionStream

"I had the pleasure of working with Austin on various projects. He excels at finding elegant solutions for complex UX problems. The code he produces is clean standards compliant and cleaver. Austin is a powerful asset to any UX or UI team and I would be honored to have him on my team again."

### Brian Hansen

Ancestry.com

"Austin is comfortable with both visual design and building working prototypes. He has strong CSS skills and is interested in keeping up with the latest tools and platforms. He responds well to coaching and is eager to learn and grow in his career."

### Blake Scarbrough

Ancestry.com

"Austin has a good eye on web design and can take a project and make it look good and usable. He has an excellent handle on CSS/HTML and whatever tool you throw at him. He is driven and interested in keeping up with latest trends within the industry."

### Jeffrey Dibble

University of Texas at Houston

"Austin Condiff is the most creative, principled and innovative designer I have had the privilege of working with and getting to know. Austin has 'insane' creative and artistic design abilities. His natural and self-taught abilities excel those with degrees and experience already working in the field. Austin displays maturity, teachability and undaunted dedication to completing/exceeding project expectations. He has a courageous optimism to venture into unfamiliar territory and still deliver cutting-edge work."
